The Player's Codex

CHAPTER 1

Changes to the Base Game

As you will soon discover, this world is ripe with a feast of options and varieties of character flavour heard before only on the lips of a madman.

– The Charred Eye

Through the powers that be, this campaign has additional mechanics for the adventurers involved. From elven princesses of argent starlight to clowns of eldritch fear, this guide to **Apotheosis** outlines your unique powers and afflictions.

Homebrew Rules

This section outlines universal changes to the rules, from combat to travel and even roleplay.

Travel

Travel is broken into three tiers of distance and cost. Depending on how fast you go and the route you take, encounters can be avoided and the resources you find can grow or shrink.

Travel Tiers

DISTANCE	ENCOUNTERS	REST AFTERWARDS
Nearby	1+	Short rest *recommended*
Far	2+	Short rest *required*
Very Far	3+	Long rest *required*

Class Divergence

Some classes may use a **variant spellcasting ability** that fits the character better.

PALADIN

The spellcasting modifier for the paladin is **Wisdom** instead of **Charisma**.

WARLOCK

The base warlock uses **Charisma**, though you may ask to use **Intelligence** instead.

SORCERER

The base sorcerer uses **Charisma**; if you never multiclass out of sorcerer, you may ask to use **Constitution**.

The bell of the drowned chapel rings once, though no rope hangs from it. Somewhere beneath the black water, something that was once a knight begins to climb.

Critical Rolls

When a **natural 20** or **natural 1** is rolled, the critical success or failure gains an added effect chosen by the Dungeon Master.

Two Halves of a Whole

An organised whole that is perceived as more than the sum of its parts. Wielders of blade *and* sorcery walk a narrow road, and the road remembers every step.

Hybrid Source Material

This campaign uses the 2014 and 2024 *Player's Handbooks* together, to widen the roleplaying potential of the adventurers and the world built around them.

Species & Backgrounds. See the relevant chapter for the custom and adapted species available.

OPTIONAL RULE

Heroic Death & Act of Valour

Act of Valour. Once per session, when an ally within 30 feet would drop to 0 hit points, you can take the blow instead.

Heroic Death. A character who dies furthering the party's goal may make one final action of their choice before falling, and the table remembers it.

CHAPTER 2

Afflictions of Lyrium

Lyrium sings. Blue lyrium sings softly, of memory and of power; red lyrium screams. Every character who handles it long enough learns the tune.

Caeruleolyriasis

Special affliction (blue lyrium withdrawal)

Casting Time: 1 hour (escalates)
Range: Self
Components: None
Duration: Until cured

When you are separated from a steady supply of **blue lyrium**, or try to stop using it, you suffer **Caeruleolyriasis**. While afflicted you feel fatigue, forgetfulness, a gnawing thirst and cold hands, and the hunger only deepens.

Withdrawal Side Effects

D6	EFFECT
1	**Dermal Luminescence.** You shed dim light 5 ft. and have disadvantage on Dexterity (Stealth).
2	**Arcano-Dyslexia.** For 1 hour, succeed on a DC 12 Intelligence check to read normally.
3	**Perceptual Desync.** Disadvantage on initiative rolls.
4	**Fine-Motor Tremor.** Disadvantage on Dexterity checks made with tools.
5	**Scar Irradiation.** You can't gain temporary hit points.
6	**Resistance.** You resist further withdrawal effects.

Signs of Exposure

- **Voices:** A faint Calling, like a choir heard through stone.
- **Crystals:** Red veins that surface under the skin.
- **Cold Hands:** The first sign of blue withdrawal.
- ***The Truth:*** Red lyrium is alive, and it is listening.

PART II

The Bestiary

CHAPTER 3

Things That Wait Below

Beneath the Tower of Elves, the lyrium veins grow thick enough to walk on. What lives there was not born; it was *grown*.

Behemoth

Large monstrosity, unaligned

Armor Class 10 (lyrium hide)
Hit Points 120 (16d10 + 32)
Speed 35 ft.

STR	DEX	CON	INT	WIS	CHA
26 (+8)	10 (+0)	26 (+8)	8 (−1)	12 (+1)	8 (−1)

Skills Athletics +10
Senses passive Perception 11
Languages understands Common but can't speak
Challenge 10 (5,900 XP)

Essence of Red Lyrium. The behemoth has advantage on saving throws against spells and other magical effects.

Mage Slayer. When the behemoth damages a spellcaster, the target must succeed on a DC 16 Constitution saving throw or lose its lowest spell slot.

Actions

Bash. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one target. *Hit:* 15 (2d6 + 8) bludgeoning damage.

Wall of Lyrium. Jagged red lyrium bursts from the ground at up to four points within 30 ft. Each creature within 5 ft. of a point must succeed on a DC 13 Dexterity saving throw or take 7 (2d6) piercing damage.

Bonus Actions

Quake. The behemoth spends 2 **Shards**. Each creature of its choice within 10 ft. must succeed on a DC 16 Strength saving throw or fall prone.

The Drowned Chapel

1. The Nave

Black water fills the nave to the knee. Pews float, overturned, and the altar glows a faint and hungry red.

1A. THE FONT

The font is dry. Something has scratched *"she is still singing"* into the stone, over and over.

2. The Bell Tower

A narrow stair spirals up into the dark. The bell has no rope.

Shards

Lyrium-touched creatures spend **Shards** to fuel their abilities. Track them with tokens on the table where players can see them dwindle.

The Black Knight does not sleep. It waits.
